SUMMARY

Front-end developer with +4 years of experience specializing in **React**, **TypeScript** and **Next.js**. Expert in designing reusable components and optimizing performance, achieving a 40% reduction in development time. Successfully enhanced user engagement by 10% through migrating multi-page apps to single-page applications. Seeking to leverage my skills in building seamless interfaces and integrating **RESTful APIs** to drive innovative web solutions.

EXPERIENCE

Front End Developer

Canadian Trading Company

 03/2024 - 09/2024

 Canada,Remote

Designed & implement : [TradingUnique.com](#)

- **Modernizing Laravel Frontend with React:**
- integrated React via Vite's React plugin to implement dynamic dashboard pages within an existing Laravel project, improving page load speed by 30% compared to Blade-rendered views.
- Utilized React Hook Form and TanStack Table to build robust forms and dynamic data tables, resulting in a 20% increase in validation accuracy, usability, and data handling.
- Structured the frontend architecture with modular logic and clear folder organization to ensure long-term reliability, scalability, and ease of maintenance for future developers.

React JS Developer

Sepehregan

-  08/2022 - 02/2023
-  Mazandaran, sari
- Successfully integrated over 150 RESTful APIs while leveraging React TanStack Query for efficient form submissions and data handling, which led to a 15% reduction in API call errors.
 - Architected and implemented reusable modules and component patterns, improving long-term scalability and reducing technical debt by 30%.
 - Resolved a persistent memory leak in a React application by identifying and fixing improper cleanup of event listeners and subscriptions, reducing memory usage by 25% and preventing application crashes.
 - Pioneered and maintained Jest and React Testing Library test suites, effectively preventing 75% of critical bugs from reaching production and improving overall release stability.

Front End Developer

Apanco Company

-  03/2018 - 2020
-  Mazandaran, sari
- Designed and developed user interface using HTML, CSS, and JavaScript.
 - Developed and designed user interface using HTML5, CSS3, and JavaScript.
 - Designed and implemented the admin panel.
 - Implemented event handling using jQuery functionality.
 - Designed and developed user interface using HTML, CSS, and JavaScript.
 - Implemented event handling using jQuery functionality.
 - Designed and implemented an educational website.
 - Implemented event handling using jQuery functionality.
 - Designed and implemented an educational website.

SKILLS

React	Next.js	Typescript	Slack
Tailwindcss	SCSS	Framer Motion	
Three.js	Cypress	Jira	Trello
Shadcn	Hero Ui	Storybook	
Zustand	Redux	Context	Daisyui
Rest Api	Postman	React-Hook-Form	
React Query	Swagger	Axios	MUI
GitHub	Click up	AOS	Figma
Bootstrap	Responsive Design	Yup	
CI/CD			

KEY ACHIEVEMENTS

-  **Efficiency Improvement**
Designed and implemented user interfaces and user experiences that improved website usability and accessibility
-  **Admin Panel Design**
Designed admin panel with intuitive interface, impacting users.
-  **Web Performance Enhancement**
Optimized speed for 3 apps, enhancing scalability by 25%.
